Casa Ex

Albanchez

€10,000

Great opportunity to buy a house in a small village with very few neighbors; with a lot of potential after completing its reform and for very little money.

It consists of 3 floors:

- Ground floor: terrace, 1 bedroom, living room, bathroom and kitchen.
- First floor: kitchen, living room, bathroom, pantry and 1 bedroom.
- Second Floor: 3 rooms.

The house has been renovated in part, the part which has been reformed, as for example, the cuisine, has retained the style of the original ceilings of the house, very typical in the houses of Andalusia.

It also has 300m² of garden and water and light are to connect.
