Large property for sale in Tahal (Almeria)

On this occasion we visited a large house that just entering gives us the idea of a house for two types of clients: a large family or a rural hotel (B&B).

It has 3 floors with access from two streets.

On the ground floor there are 2 living rooms with fireplace, bathroom, old corral for animals, 2 storerooms and patio.

Going up the stairs we find the first floor which is distributed in 5 bedrooms, bathroom and another room with no specific use.

Further up, on the top floor, there are 2 more bedrooms.

It only needs cleaning and painting and you will have a great house very quickly.
