The plot has an irrigation pond that could easily be converted into a swimming pool, as well as a water tank for storing rainwater.

The house has two floors.

On the ground floor there is a large living room with a fireplace, a toilet, a pantry, a kitchen with a fireplace, another living room, 4 bedrooms (1 en suite) and a garage.

Upstairs there are 2 large bedrooms.

It also has a garage with space for 3 cars.

The house needs a little modernisation as it has been uninhabited for quite some time.

Very competitive price.
